Wow. Thanks, you totally made my budget clouded day! I glad that my rankings of a mad man somehow helped the cause!

Ted –

I just wanted to thank you for your feedback during the Powder Mill discussion. Our conversation led me down a really productive path and I have finally landed on environmentally protective and scientifically justifiable limits that I feel comfortable with. I really appreciate your input and can't thank you enough for your participation in these calls.

I know it's a super busy time for you – to help ease the burden I will do my best to direct you to the few responses and corresponding permit conditions that will most benefit from your review. Your feedback will be critical and again I just wanted that thank you for your time and insight.

Danielle
